ASTRA DF 2207NS

Non-silicone defoamer

Description

ASTRA DF 2207NS is a silicone-free defoamer designed for water-borne systems. It has strong defoaming ability. This defoamer should be introduced at the dispersion stage during the manufacture. It is used in latexes and emulsions, especially in acrylic, vinyl acetate or vinyl acetate-acrylic emulsions.

Physical and Chemical properties

Ingredient: Silicone-free polymer
Appearance: Colorless viscous liquid
Content: 100%

Speciality

1. ASTRA DF 2207NS is suitable for water-borne systems only.
2. ASTRA DF 2207NS should be introduced at the dispersion stage during the manufacture.

Application System and Dosage

The recommended dosage of the additive is around 0.05% to 1.0% upon total formulation.
ASTRA DF 2207NS should be introduced at the dispersion stage during the manufacture.

Package

25kg metal pail.
