ASTRA DISP 11206

Dispersant

Description

ASTRA DISP 11206 is a high molecular dispersant that is used in water borne systems for high-surface carbon black pigments, difficult to disperse organic pigments and inorganic pigments. Product provides great color development and high gloss with low viscosity of the paste.

Physical and Chemical properties

Ingredient: Copolymer with pigment affinity groups
Appearance: Yellow liquid
Active part: 40%
Solvent: Water

Specialty

1. ASTRA DISP 11206 is suitable for dispersion of organic pigments and carbon black.
2. ASTRA DISP 11206 is used in pigment concentrates.

Application System and Dosage

ASTRA DISP 11206 is recommended for water borne inks, pigment pastes and coating systems.

Usually, it is recommended to introduce the additive before the dispersion stage during the manufacture with 10% to 12% upon TiO2, with 15% to 50% dosage upon carbon black and with 15% to 50% dosage upon organic pigments.

Package

25kg plastic pail.
