ASTRA LA 501

Silicone leveling agent

Description

ASTRA LA 501 is a polyether modified polysiloxane. It has excellent compatibility with most paint resins and has no negative influence on recoatability. It provides excellent leveling and low foam stabilization in solvent-borne systems. ASTRA LA 501 is particularly suitable for epoxy flooring systems.

Physical and Chemical properties

Ingredient: Polyether modified polysiloxane
Appearance: Light yellow to green viscous transparent liquid
Active part: 100%

Application System and Dosage

ASTRA LA 501 could be used in solvent-borne, water-borne and UV curable coating systems.

Usually, it is possible to introduce the additive at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg metal pail.
