ASTRA REO 25010

Rheology Modifier

Description

ASTRA REO 25010 is a non-associative acrylic thickener. This thickener provides pseudoplastic rheology. It provides anti-settling properties and leveling to the system, it could be combined with other types of thickeners. The additive is suitable for all kinds of water-borne systems, particularly for coating systems and adhesives.

Physical and Chemical properties

Ingredient: Carboxylated acrylic polymer
Appearance: White liquid
Active part: 25%
Solvent: Water

Specialty

1. ASTRA REO 25010 provides pseudoplastic rheology.
2. ASTRA REO 25010 anti-settling properties and leveling to the system.
3. ASTRA REO 25010 provides good storage stability to the system.

Application System and Dosage

ASTRA REO 25010 is used in all water-borne industrial coating systems and adhesives.

The recommended dosage of the additive is amount is around 0.1 - 1.0% upon total formulation. Optimal levels are determined through a series of laboratory tests. This thickener is effective at pH value 7-9.

Package

25kg plastic container.
