

ASTRA LA 105NS

Non-silicone leveling agent

Description

ASTRA LA 105NS is a leveling agent based on a modified acrylic copolymer. ASTRA LA 105NS has very good compatibility with most of common resins and provides very good leveling.

Physical and Chemical properties

Ingredient: Acrylic copolymer

Appearance: Colorless to light yellow transparent liquid

Active part: 50%

Solvent: Naphtha

Specialty

1. ASTRA LA 105NS has good compatibility and provides good leveling in solvent-borne systems.
2. ASTRA LA 105NS provides excellent substrate wetting.

Application System and Dosage

ASTRA LA 105NS is suitable for alkyd systems, acrylic systems, amino baking paints and polyurethane solvent-borne coating systems. It is particularly suitable for refinish and UV curable systems.

Usually, it is recommended to introduce the additive at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg metal pail.
