

ASTRA LA 1801

Silicone leveling agent

Description

ASTRA LA 1801 is a polyether modified polysiloxane. It is suitable for both solvent-borne and water-borne systems with good leveling and low foam stabilization. The additive could greatly decrease the surface tension and improve the orientation of matting agent.

Physical and Chemical properties

Ingredient: Polyether modified polysiloxane

Appearance: Light yellow viscous transparent liquid

Active part: 100%

Specialty

Leveling	Wetting	Recoatibility	Compatibility	Sliding	Low Foam Stabilization	Anti-craters	Anti-blocking

●●●●● Good ● Bad

Application System and Dosage

ASTRA LA 1801 is suitable for solvent-borne, water-borne and UV curable coating systems.

Usually, it is possible to introduce the additive at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg plastic pail.
