

ASTRA LA 2101

Leveling agent

Description

ASTRA LA 2101 is a special modified polysiloxane. The additive has low surface tension, so it could provide excellent anti-crater ability. It also provide good leveling and have no negative influence on inter-coat adhesion and recoatability. When used in clear systems the compatibility should be tested.

Physical and Chemical properties

Ingredient: Modified polysiloxane

Appearance: Colorless transparent liquid

Active part: 100%

Speciality

Leveling	Wetting	Recoatability	Compatibility	Sliding	Low Foam Stabilization	Anti-craters	Anti-blocking
