

ASTRA LA 405NS

Non-silicone leveling agent

Description

ASTRA LA 405NS is an acrylic copolymer leveling agent with 100% content. It has excellent leveling ability and good compatibility. It is suitable for automotive refinish systems and UV curable coating systems. ASTRA LA 405NS is used as an anti-cratering and leveling additive in all solvent-borne and solvent-free coating systems.

Physical and Chemical properties

Ingredient: Acrylic copolymer

Appearance: Colorless to light yellow transparent liquid

Active part: 100%

Speciality

1. ASTRA LA 405NS has good compatibility and leveling ability.
2. ASTRA LA 405NS could reduce the surface tension and provide anti-crater effect.
3. ASTRA LA 405NS has no negative influence on the recoatability.

Application System and Dosage

ASTRA LA 405NS is recommended for alkyd, acrylic systems, amino baking paints, polyurethane resin coating systems and other solvent-borne and solvent-free systems.

Usually, the additive could be charged at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg metal pail.
