

ASTRA LA 4201

Silicone leveling agent

Description

ASTRA LA 4201 is a polyether-modified silicone compound that could be used as an excellent leveling agent to provide anti-crater, scratch resistance and anti-blocking properties and to create a smooth coating. At the same time, ASTRA LA 4201 has great ability to influence matting agents orientation.

Physical and Chemical properties

Ingredient: Polyether modified silicone oil

Appearance: Light yellow transparent liquid

Active part: 100%
