

ASTRA LA 505NS

Non-silicone leveling agent

Description

ASTRA LA 505NS is a mixture of different solvents with high boiling point. It could provide good leveling of a paint film.

Physical and Chemical properties

Ingredient: Mixture of high boiling point organic solvents

Appearance: Colorless to light yellow transparent liquid

Active part: 100%

Specialty

1. ASTRA LA 505NS has good compatibility and provides good leveling.
2. ASTRA LA 505NS could decrease the surface tension and has anti-crater properties.

Application System and Dosage

ASTRA LA 505NS is suitable for alkyd systems, acrylic systems, amino baking paints, polyurethane solvent-borne coating systems and also for solvent-free systems.

Usually, it is possible to introduce the additive at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg metal pail.
