#### **ASTRA PA 1808**

Adhesion promoter

# **Description**

ASTRA PA 1808 is a modified chlorinated polypropylene compound, it has special chain segment with reactive functional groups, so it could provide strong anchoring with polyurethane and other systems, thereby greatly promoting the adhesion of paint film to polyolefins and other substrates. The adhesion promoter could increase the water resistance and salt spray resistance of the coating.

# **Physical and Chemical properties**

Ingredient: Modified chlorinated polypropylene

Appearance: Yellow transparent liquid

Active part: 25% Solvent: Water

### **Speciality**

- 1. ASTRA PA 1808 is used to improve the adhesion of the paint film to polypropylene substrates.
- 2. ASTRA PA 1808 has reactive functional groups that could greatly enhance the adhesion of the paint film.

### **Application System and Dosage**

Usually, the recommended dosage of the additive is around 0.2%-2% upon total formulation.

# **Package**

25kg metal pail.
